SCHOOL DATA SQUAD
We Make Data Work for You

FOR TEXAS SCHOOL DISTRICT LEADERS

TSDS REPORT REVIEW HUB

Your name is on the submission. Are you sure every report was reviewed?

Every TSDS collection carries your district's funding and its accountability rating. The Report Review Hub makes certain every report is seen, checked, and approved by the right person — before the deadline, with a record that proves it.

If you lead a district, you have probably wondered...

Reports nobody actually opened

Edit reports and campus verification reports pile up in inboxes and shared drives. When no one clearly owns a report, errors ride straight through to TEA.

Attendance that quietly costs money

ADA drives your Foundation School Program funding. A miscoded day or an incomplete campus attendance audit can mean dollars your district earned but never receives.

Accountability points you cannot get back

Once a collection closes, leaver codes, program flags, and enrollment errors flow into your A–F ratings. Corrections come late, if they come at all.

Proof that lives in someone's email

When an auditor or TEA asks who reviewed what and when, the answer should not depend on one person's inbox — or on that person still working for you.

What if one screen showed you every report, every campus, and every sign-off — before TEA ever sees the data?

HOW THE REPORT REVIEW HUB PROTECTS YOU

One place to prove every report was reviewed.

Every report has an owner

Each TSDS report is assigned to a named reviewer and tracked against its collection due date.

Reminders that do the chasing

Automatic email nudges reach the right campus staff before deadlines — not after.

Campus and district sign-off

Campuses review their own data. Coordinators see every campus's status on one screen.

Attendance Audit Boxes

Year-by-year audit documentation for the district and each campus, with compliance measured campus by campus.

Attendance Compliance Report

Generate it on demand to show exactly what is complete, what is missing, and who is responsible.

Versioned, archived, defensible

Comments, approvals, and archived final submissions create a record you can hand to an auditor.

FROM UPLOAD TO ARCHIVED SUBMISSION

1. **Upload** — Drop in TSDS reports by collection.
2. **Review** — Campuses comment and correct.
3. **Approve** — Named reviewers sign off.
4. **Archive** — Final submissions are preserved.

BUILT FOR EVERYONE WHO SIGNS OFF

Superintendents & CFOs

Confidence that funding and ratings are protected — with proof on one page.

PEIMS & data coordinators

Stop chasing campuses by email. See every gap before the collection closes.

Principals & campus clerks

A clear, short list of what is yours to review — and nothing that is not.

FERPA-aligned access · Multi-factor sign-in · Encrypted in transit & at rest · Full audit logging

Walk into your next collection knowing it is covered.

See your district's reports, campuses, and attendance audit in a free 15-minute walkthrough. No sales pressure — just a clear look at what is reviewed and what is at risk.
